## **STAFF REPORT**

### **3-27-19**

Our call volume for February was down with 25 calls this year vs. 31 last year. Our total call volume for 2019 is down at 77 vs. 125 last year. We used a total of 290 gallons of gasoline in February and 21 gallons of diesel.

#### **Old Business**

The new pick-up for station 94 is here and is being outfitted for emergency response.

#### **New Business**

I attended the LFCA conference in Bossier City last week. Some great educational sessions and some great face to face meetings were held with not only my peers, but with the leaders of PIAL and several other entities that FD9 has to interact with which will benefit FD9's constituents as well. Great conference and I look forward to future events as well!

We will be restructuring the layout of our engines and we will be changing our policies on how we handle certain fires in the immediate future. It's something that will assist us in handling larger fires quicker and more efficiently.

PIAL rep Kenny Weber will be at our station on August 1<sup>st</sup> to do a courtesy audit of our department. This is done so that we can get a jump on any available points that we may have otherwise missed. It's a great opportunity and I look forward to it as well. One of the items we will be handling is the structures that we are rated upon that either do not exist anymore (i.e. The Grey Barn, The Bush Auction House) or have been converted to a residence and do not qualify to be rated commercially anymore. This is something that will assist us in improving our "needed water flow" requirements and should improve our rating.
